AI Adoption Score

ai-adoption-score.app

Find out what's stopping your team from using AI.

Measure your team's AI adoption on three pillars:

Self-reported surveys · Quizzes · Coding telemetry

5 min to your first report

12 reports

800+ charts and metrics

THE PROBLEM

You pay for AI. You can't see whether it changes how people work.

What stops people using AI more · Your main gaps and blockers · How to turn AI usage into impact

REPORTS

SELF-REPORTED SURVEYS

360° AI Maturity Assessment
Where each team stands, and what to work on next.

AI Market Pulse
Whether your people keep up with this quarter's AI.

AI Skills Distribution
Who has which AI skills, and who can teach them.

AI Adoption Barriers
What stops people from using AI, and who can fix it.

CODING TELEMETRY

AI Coding Usage
Measured use of Claude Code and Codex, and GitHub impact.

QUIZZES

Safe AI Use Quiz
Who uses AI safely, and who is sure but wrong.

n8n Skills Quiz
Real n8n skills, from Beginner to Expert.

Claude Skills Quiz
How well people really use Claude at work.

Claude Code Fluency Quiz
How well engineers know Claude Code.

Codex Fluency Quiz
How well engineers know Codex.

HOW IT WORKS

1. Send a survey or connect your AI tools
2. Watch results in real time
3. Run it again and track the trend

FEATURES

Approved in Claude · Approved in ChatGPT · Connect with AI (MCP) · People profiles · Trends over time · Timeline and notes · Human-first metrics · Export to PDF, .md and CSV

We take security seriously

- We don't store your company's data, only survey answers and analytics.
- Answers and analytics are encrypted in transit and at rest.
- For Enterprise, we can provide a self-hosted version.

"The assessment turns AI adoption into a clear roadmap, showing where teams are ready, where they need support, and what to prioritize next."

Dirk Gietelink
Founder & Fractional AI Leader, DGTL ink
the Netherlands
